Removable Key Pad for Easy Cleaning

Maintain high hygiene standard with the water resistant number key pad that is easily removed for cleaning.

Water Resistant Key Pad

Adjustable Operator Display

The operator display is readily adjustable to suit different counter and operator height for the best viewing and operation position.

Adjustable Operator Display

Built-In Scanner

Workspace is minimized as the SM-5500 comes with optional scanner that is ergonomically built in the scale.

Built-In Scanner

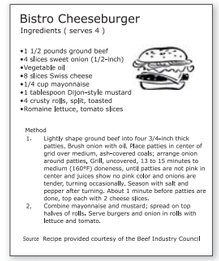
Multi-Media Possibilities

Up sell or cross sell with the multi-media functionality by simply interfacing with a remote display.

Remote Display

On Demand Printing

Product related information such as recipes or coupons can readily be printed on demand from the optional TVP-1500Q printer.



Bistro Cheeseburger
Ingredients (serves 4)
• 1 1/2 pounds ground beef
• 6 slices sweet onion (1/2-inch)
• Vegetable oil
• 8 slices Swiss cheese
• 1/4 cup mayonnaise
• 1 tablespoon Dijon-style mustard
• 4 crusty rolls, split, toasted
• Romaine lettuce, tomato slices
Method
1. Lightly shape ground beef into four 3/4-inch thick patties. Brush onion with oil. Place patties in center of grid over medium, ash-covered coals; arrange onion around patties. Grill, uncovered, 13 to 15 minutes to medium (160°F) doneness, until patties are not pink in center and juices show no pink color and onions are tender, turning occasionally. Season with salt and pepper after turning. About 1 minute before patties are done, top each with 2 cheese slices.
2. Combine mayonnaise and mustard; spread on top halves of rolls. Serve burgers and onion in rolls with lettuce and tomato.

Higher Sales Turnover with Integrated Queue Management

SM-5500 integrated queue management provides customers with the convenience to continue shopping while waiting for their turn to be called, effectively reducing walk-aways and increasing sales.

- Queue number
- Average waiting time
- Number of customers ahead of the queue number

Q-System

Fast Printing Improves Operation Speed

The label & receipt printer are built for high speed printing at up to 150mm/sec.*, improving throughput at the serving counter.

2nd Receipt Printer with Auto Cutter

The receipt printer has enhanced auto cutter feature that further improve work speed at the counter.

More Features....

ECR functions, remote diagnostics, ordering system, linerless printing and help mode for operators.

Linerless Label
